Subject Declined: Keystone Center - Bristol Bay Stakeholder Dialogue

The Keystone Center has engaged in a very extensive stakeholder dialogue process regarding the development of the Pebble Mine which includes a independent science panel review. They offered to give us a presentation about their work.

Here is a link to their project website:<http://www.keystone.org/spp/environment/natural-resources/pebble>

.Patty, Tami and Phil attended the public meeting they hosted last December and can also provide us their perspective on the process and outcome.
